We can provide you with the help and support that you deserve.
We are available all day, every day.

A HISTORY OF HELPING CHILDREN

St. Mary's Services was founded in 1887 by the Episcopal Sisters of St. Mary.

Originally an orphanage for homeless children and then a foster care facility, in the 1940s St. Mary's embarked on adoption. Since that time the agency has facilitated thousands of successful adoptions - each providing new beginnings for infants, birth parents and adoptive parents of all races, religions, and backgrounds.

Our Mission Established more than 130 years ago, St. Mary's Services is a faith-based, non-profit organization that serves women who are experiencing unplanned pregnancies and who are considering adoption. St. Mary's also serves families looking to adopt children. Through personalized counseling, education, supportive resources, and adoption services, the agency is dedicated to building loving families.

St. Mary's Services

COMMONLY ASKED ADOPTION QUESTIONS

Q: Is it selfish to want to place my baby for adoption?

A: No. Through adoption, you offer your baby not only life, but the chance for a good future. You also have to decide what is best for you. Your personal goals, such as a school or career pursuits, are important ways of taking care of yourself. There is a difference.

Q: Is adoption permanent?

A: Yes.

Q: If I choose adoption, who will pay my bills?

A: The Hopeful Beginnings Program will assist you with reasonable pregnancy-related expenses, including medical care, should you need help.

Q: What about the birth father?

A: By law, biological fathers have the same rights as birth mothers. When possible, it is important that the birth father be involved in making an adoption plan for the child. We encourage both parties to receive the counseling needed to make the right decision for your child.

Q: Can I have contact with my child after placing him/her for adoption?

A: Yes. Through the Hopeful Beginnings Program, you can choose to have an open adoption, which means that you and the adoptive family have ongoing contact after the baby is born. The level of openness is up to you and with what you are most comfortable.
